

FOOD SERVICE SKILLS IMPROVEMENT 101

Senior High

Description

Today more students have after school jobs. With the growing number of students working part-time jobs, students need to obtain work and communications skills to be successful employees. This experience and in classroom work will prepare them for their future.

Family and Consumer Sciences Classes

- Foods
- Life Skills
- Careers

Classroom Activities

- Practice communication skills through mock interviews and customer service role-plays.
- Have students research and invite guest speakers in the food service field.
- Take field trips to visit professionals in the food service industry.
- Discuss and practice safety techniques related to food service jobs.
- Have students complete a Power of One Working on Working module.
