

PREPARE TODAY FOR TOMORROW

Senior High

Description

Gathering information on all careers and matching one's skills and abilities with a career can be a daunting task for anyone. Students learning interests, strengths and weaknesses can greatly enhance their capability to find that "perfect career." With an early start, students can identify and prepare for a career and build a strong base for career know-how and job experience. It will provide them with many resources and options for the future. Students today find it essential to have this career knowledge to prepare for the future.
